DESDE 1977 AO SERVIÇO DA SAÚDE DO FUTURO

Dear Colleagues,

It is an honor to welcome you to Lisboa, Europe's second oldest capital, full of stories to tell and offering a wide variety of interesting attractions: wonderful architecture, unique monuments, vibrant cultural life and great natural sightseeing over the river and sea. In Lisboa you will find the much appreciated Portuguese food: fresh grilled fish, seafood and the beloved “bacalhau” (salted cod) recreated in over a thousand different ways. Not forgetting FADO, the world heritage traditional Portuguese music, filled with memories and longing for our loved ones.

Lisboa, once home to the world's greatest explorers from where Vasco da Gama and Pedro Alvares Cabral left to reach India and Brazil among many other discoveries that turned the unknown world into a global village, is now becoming a privilege place to share and discuss new scientific discoveries.

Within the meeting we will address 5 major topics: 1) Why should we care about NAFLD in the context of diabetes?; 2) NAFLD: heterogeneity, progression and therapeutic approaches; 3) Big data and patient stratification: from genetics to deep phenotyping; 4) Intertwining inflammation and metabolism in liver disease; 5) Integrated Pathways and markers of disease progression. A novelty of the 7th EASD NAFLD Study group is that the best abstract will be awarded to our young investigators by generous support from Lilly.

The meeting will take place at Centro de Estudos de Doenças Crónicas – Chronic Diseases NOVA (CEDOC), at NOVA Medical School. The Medical School lies at the hearth of Lisbon, in one of the city's seven hills - hill of Santana - from the 8th to the 9th of May. Keep in mind that this is always a rewarding meeting, with opportunities to make new contacts, meet old friends and stimulate creative exchange. Mark your calendars and we hope to host you in Lisbon in May!

With very best regards from the Organizing Committee,

Maria Paula Macedo

John G. Jones

Amalia Gastaldelli

Of Note:

- Shortly we will be sending practical information about hotel and registration procedures.
- Registration fee: 50 euro
- Please submit abstracts to diabetes.int@apdp.pt . Abstracts should be no more than one page long, 1800 characters. Please note closing date for abstracts is **1st March 2019**.
